

# Truck Talks

might not convince you without evidence. .. ..

But compare a wagon to our truck, note the similarity of construction features—

No box bearings. Nothing to easily break or get out of order. Extra large center wheels, REVOLVING on taper turned axles. Wide treads, special

first-class castings. Grand Rapids Trucks are first, last and all the time the safest in construction and positively the best. :: ::

*No. 15 Catalog shows them*

## Grand Rapids Hand Screw Company

622 North Front St.

:: :: :: :: :: ::

Grand Rapids, Mich.

## Bench Building

No. 1

¶ Our Catalog No. 15 mailed the day we get your inquiry.

### Grand Rapids Hand Screw Co.

622 No. Front Street

GRAND RAPIDS, MICH.

Isn't a science, but it is mighty near to it. ¶ From the important part of properly kiln drying the thick maple used to completing a bench for shipment, more thought and skill are required than the average ability to use a saw and hammer. ¶ It's a cabinet maker's job. Our men are cabinet makers, NOT carpenters.
